

HYDRAULIC PUMP UNIT WITH ELECTRONIC VALVE

Pump Unit HE

Hydraulic pump unit for elevators with electronic valve offering maximum silence and comfort during travel, having significant increase of efficiency and relevant energy saving.

HYDRAULIC PUMP UNIT WITH MECHANICAL VALVE

Pump unit HE

Range of products

Tank type	Pump (l/min)	Motor (kW)	Oil (l)
110/S	55 - 150	4.8 - 14.7	65
135/S	55 - 150	4.8 - 14.7	100
210/S	55 - 210	4.8 - 18.4	140
320/S	100 - 300	7.7 - 29.4	215
450	180 - 380	11.0 - 36.8	300
680	380 - 600	14.7 - 58.8	475
Special application up to 1200 l/min			

- Up to 30% energy saving compared to traditional pump units
- Ideal for high traffic
- Up to 1 m/s speed
- Precise floor approach
- Up to 30% reduced oil heating compared to traditional pump units
- High comfort during travel not depending on temperature and load
- Easy setting of parameters through hand terminal and specific software
- Compliant with EN81/80
